

WE WROTE THE BOOK ON FOD CONTROL PROGRAMS!

MAKE IT FOD FREE!

The Ultimate FOD Prevention Program Manual

For Airports, Airlines, Military, Manufacturing and Fixed Base Operators

Would you like an easy way to create an effective FOD prevention program?

“**MAKE IT FOD FREE!**” is the first and only comprehensive manual providing tools to create, implement, expand and maintain an effective FOD Prevention Program. Thirteen pioneering aviation FOD program experts--with over 150 years combined experience--provide twelve chapters of detailed guidance *so you learn fast how to fight FOD*.

Using their hands-on skills and knowledge to your advantage, you will:

Discover a step-by-step presentation of the elements needed to start, maintain and/or improve your own FOD Prevention Program.

Find information that is simple, clear and orderly--*using it immediately*.

Understand how to establish and *achieve* realistic FOD prevention goals.

Learn how to analyze and report the *true costs and impact of FOD*, enabling you to understand and communicate your own program needs to supervision.

Receive tips on securing the budget necessary for program implementation and success.

Be provided with internet resources for additional information to fine-tune your program.

This unique book provides practical information that will help anyone concerned with FOD, whether “new guy” or “old hand.” And--the printed version uses an innovative *lay-flat* concealed spiral binding, making it easy to both read and copy pages for presentations.

**“MAKE IT FOD FREE!” is where the policy meets the pavement.
Get your FOD program rolling!**

Build Your FOD Program on Solid Foundations

Part Three: FOD Program Actions for Military Deployment

“This is the first time anyone has collected detailed information from real-life, experienced FOD Prevention experts, organized it, and ‘translated the techno-speak’ so that anyone can understand and put it into action successfully,” says Gary Chaplin, company president. “Thirteen FOD Program professionals contributed detailed information on their specialties.”

The author team includes

Phil Messenger - Former Safety, Reliability and Quality Assurance spokesman on the Space Shuttle Program and Northrop Grumman Corporation manufacturing facility FOD Program Manager.
George Morse - Founder and President of F.A.S.T. (Failure Analysis Service Technology), the world’s premier FOD incident investigator.

Master Sergeant Steven Ball - US Air Force FOD Program Manager at Minot Air Force Base.

Wing Commander Richard Friend - Former British Royal Air Force FOD Programs Manager.

Don Simmons - Former American Airlines FOD Program Manager.

David Larrigan - Airport FOD Program Manager, Vancouver International Airport, Canada.

The full author group brings collective hands-on experience in FOD Prevention Programs exceeding 150 years. They freely share detailed information and experience enabling anyone to create, operate and maintain an effective FOD Prevention Program. **MAKE IT FOD FREE!** will get you off to a rolling start on a new FOD program, or accelerate your existing efforts to full speed ahead.

Says Chaplin: “Building and operating a strong FOD Prevention Program *can be done*, and in this manual our team of experts has laid the foundation and given you the right tools to do it faster, easier and successfully.”

Take advantage of their experience and save yourself time, work, money and frustration. This book will definitely increase your knowledge and effectiveness. It might even make you look like a genius!

**This manual will help you get your FOD Prevention Program where it needs to go.
